Project Name	EduGenie – AI-Powered Educational Assistant	GitHub	https://github.com/theopintheo/EduGenie
Team Members	Theopin B, Antony Ragul A, Saravanan S, Karthick M	Status	Completed / working implementation

Primary Persona: Self-Learner / College Student

SAYS	THINKS	DOES	FEELS
"Explain this simply." "Give me a quick summary." "I need practice questions."	"What should I learn first?" "Is this easy enough?" "Can I revise faster?"	Asks questions, pastes notes, selects tools, checks quiz answers and follows suggested learning sequences.	Curious but sometimes overwhelmed; wants clarity, confidence and direction.

Design Implications

Need	EduGenie Response
Low cognitive load	Separate Ask, Explain, Summarize, Quiz and Learning Path workflows.
Fast feedback	Single-page interface with immediate API response rendering.
Beginner-friendly language	Feature prompts request clear, learner-oriented explanations.
Practice	Quiz module creates three MCQs with four options and answer checking.
Direction	Learning Path module structures concepts from beginner to advanced.
