

Proposed Solution

Date	30 September 2026	Team ID	6ab22029e880316a482c5f2a
Project Name	EduGenie – AI-Powered Educational Assistant	GitHub	https://github.com/theopintheo/EduGenie
Team Members	Theopin B, Antony Ragul A, Saravanan S, Karthick M	Status	Completed / working implementation

Project Overview

Field	Details
Objective	Build a lightweight AI educational assistant for understanding, revision, practice and learning planning.
Scope	Browser-based assistant using FastAPI, modular Python feature services and a shared generative AI integration.
Problem	Learners switch between multiple tools for search, notes, summaries, quizzes and planning.
Impact	A unified workflow reduces study friction and makes AI-assisted learning more structured.

Key Features

Feature	Implementation
Ask	POST /qa — direct learner-friendly answer.
Explain	POST /explain — beginner explanation with analogy and takeaways.
Summarize	POST /summarize — concise revision summary.
Quiz	POST /quiz — three MCQs, four options each, answer checking.
Learning Path	POST /learn/recommendations — structured beginner-to-advanced recommendation.

Resources

Type	Requirement
Hardware	Normal development laptop/desktop; no dedicated GPU required for cloud AI.
Software	Python 3.10+, IDE, Git, virtual environment.
Service	Gemini API key for live AI; GitHub for repository.
Data	No application database in current implementation.
