

Code-Layout, Readability and Reusability

Date	30 September 2026	Team ID	6ab22029e880316a482c5f2a
Project Name	EduGenie – AI-Powered Educational Assistant	GitHub	https://github.com/theopintheo/EduGenie
Team Members	Theopin B, Antony Ragul A, Saravanan S, Karthick M	Status	Completed / working implementation

Parameter	Status	Remarks
Consistent indentation	Yes	Consistent Python/web formatting patterns.
Proper file structure	Yes	App, feature modules, templates, static assets and docs separated.
Meaningful variable names	Yes	Names communicate purpose.
Function/method names	Yes	Descriptive and scoped.
Documentation	Yes	Project-level docs explain architecture and workflows.
Modular design	Yes	Five feature modules share one AI service.
Error handling	Yes	Validation and AI/frontend errors handled.

Reusable Components

Component	Technology	Where Reused	Level
AIService	Python/google-genai	All five AI modules	High
Request validation	FastAPI/Pydantic	API endpoints	High
Tool configuration	JavaScript	All five workflows	High
Markdown renderer	JavaScript	Text-based results	High
Shared UI styles	CSS	Workspace and results	High
